HOW TO MAKE A MATCH.

Two lovers once, on an excursion,
Midst other innocent diversion,
Desirous all new things to see,
Went through a big match factory.
The flying wheels, the dust, the din,
The unknown flitting out and in,
The vats of red tartarean fire,
And weird blue flames and odors dire,
To their huge wonder did conspire,
What deed so very small a thing?
They scarce could keep their faces
straight.
To see things go at such a rate,
"Oh, Lucy," cried the laughing swain,
"Some folks are fools, 'tis very plain—
Now, if I were to make a match,
Methinks I'd do it with dispatch."
"Yes," smiled Lucy, "so would I—
Say, John (she looked down) let's we
try!"
"All right," the swain responded quick,
"You be the sulphur, I the stick."
"Here goes!" He gave a sounding smack
Which she with unctious echoed back.
The thing was done—no spooning in it.
The were engaged with the minute.
Long may they live, without a scratch,
To prove the perils of a match.

THE NEXT CONGRESS.

The next House of Representatives will contain a good working majority of Democrats, but the Republicans are certain to control the Senate. In the Forty-eighth Congress the Senate stands 38 Republicans, 36 Democrats, and 2 Readjusters. Twenty-five Senators go out on the 4th of next March, 14 being Democrats, and 11 Republicans. Of the 14 Democratic seats, 12 will be filled again by Senators of the same party complexion. This includes Indiana, in which the Legislature is Democratic, and will, therefore, elect a Democratic successor to Voorhees, and Maryland, Louisiana, Kentucky and Ohio, in which Democratic Senators have already been chosen, viz.: Wilson, Eustis, Blackburn and Payne. In Oregon the Republicans will capture one seat by choosing a successor to Senator Slater. California, too, has been swung out of the Democratic line, and Senator Farley will give place to a Republican. Those States in which Republican Senators retire are Colorado, Connecticut, Illinois, Iowa, Kansas, Nevada, New Hampshire, New York, Pennsylvania, Vermont and Wisconsin. Good luck and good management would have given the Democrats the Legislatures of three or four of these States, but they have all been lost, with the possible exception of Illinois. In that State the Legislature is thought to be a tie on joint ballot, the Republicans having one majority in the Senate, and the Democrats one in the House. There will be contested seats in both Houses, and each party will, probably, seek to find pretexts for unseating a sufficient number of opponents to give itself a majority on joint ballot. It is impossible to predict the result of such a struggle, and hence Illinois must be left out of all calculations on the next Senate. To sum up, the Republicans will elect 12 new Senators, the Democrats 12, and one seat is in doubt. Twenty-seven of the present Republican Senators retain their seats, and when they are joined by 12 new ones, their party will have a total of 39, being a clear majority of 2. But the two Readjusters from Virginia may be expected to continue to act with the Republicans, making 41, with a possibility of obtaining one more in Illinois. There are 22 hold-over Democratic United States Senators and 12 new ones, making a total of 34, which will, of course, be 35, if the party elects a Senator in Illinois. There is no hope of seeing a Democratic Senate before 1887. In that year Republican Senators go out in California, Connecticut, Indiana, Michigan, New Jersey, New York, Ohio and Virginia (Mahone), and if the tidal wave that swept Cleveland into office has not retired by that time, the Democrats may gain seats enough to obtain control of the Senate.

In the House of Representatives of the Forty-ninth Congress, according to the figures of Edward McPherson, ex-Clerk of the House, the Democrats will have 182 members, the Republicans 141, and the Greenbackers 2. This is a Democratic majority of 40, against one of 77 in the present House. There will be fewer Republican Congressmen from the South in the next House than there are in the present one. A majority of 40 is as large as any party need ask for, but the Republican Senate will be an obstruction in the way of any comprehensive plan of reform undertaken as a party measure. Especially by its prerogative of giving or withholding assent when the President makes appointments to office will the Senate possess the power affecting the incoming Administration.—*Alta California.*

AN ALARMING DISEASE AFFLICTING

A NUMEROUS CLASS.

The disease commences with a slight derangement of the stomach, but, if neglected, it in time involves the whole frame, embracing the kidneys, liver, pancreas, and, in fact, the entire glandular system, and the afflicted drags out a miserable existence until death gives relief from suffering. The disease is

often mistaken for other complaints; but if the reader will ask himself the following questions, he will be able to determine whether he himself is one of the afflicted.—Have I distress, pain, or difficulty in breathing after eating? Is there a dull, heavy feeling attended by drowsiness? Have the eyes a yellow tinge? Does a thick, sticky, mucous gather about the gums and teeth in the morning, accompanied by a disagreeable taste? Is the tongue coated? Is there a fullness about the right side as if the liver were enlarging? Is there costiveness? Is there vertigo or dizziness when rising suddenly from a horizontal position? Are the secretions from the kidneys scanty and highly colored, with a deposit after standing? Does food ferment, soon after eating, accompanied by flatulence or a belching of gas from the stomach? Is there frequent palpitation of the heart? These various symptoms may not be present at one time, but they torment the sufferer in turn as the dread disease progresses. If the case be one of long standing, there will be a dry, hacking cough, attended after a time by expectoration. In very advanced stages the skin assumes a dirty brownish appearance, and the hands and feet are covered by a cold, sticky perspiration. As the liver and kidneys become more and more diseased, rheumatic pains appear, and the usual treatment proves entirely unavailing against this latter agonizing disorder. The origin of this malady is indigestion or dyspepsia, and a small quantity of the proper medicine will remove the disease if taken in its incipient stage. It is most important that the disease should be promptly and properly treated in its first stages, when a little medicine will effect a cure, and even when it has obtained a strong hold the correct remedy should be persevered in until every vestige of the disease is eradicated, until the appetite has returned, and the digestive organs restored to a healthy condition. The surest and most effectual remedy for this distressing complaint is "Seigel's Curative Syrup," a vegetable preparation sold by all Chemists and Medicine Vendors throughout the world, and by the proprietors, A. J. White Limited, 17, Farringdon Road, London, E. C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

Market Place, Pecklington, York,
October 2nd, 1882.

Sir,—Being a sufferer for years with dyspepsia in all its worst forms, and after spending pounds in medicines, I was at last persuaded to try Mother Seigel's Curative Syrup, and am thankful to say have derived more benefit from it than any other medicine I ever took, and would advise any one suffering from the same complaint to give it a trial, the results they would soon find out for themselves. If you like to make use of this testimonial you are quite at liberty to do so.

Yours respectfully,
(Signed) R. TURNER.

Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure costiveness.

St. Mary-street, Peterborough, }
November 29th, 1881. }

Sir,—It gives me great pleasure to inform you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the Syrup, I found relief, and after taking two bottles of it I felt quite cured.

I am, Sir, yours truly,
Mr. A. J. White. WILLIAM BRENT.

Dear Sir,—I write to tell you that Mr. Henry Hillier, of Yatesburg, Wills, informs me that he suffered from a severe form of indigestion for upwards of four years, and took no end of doctor's medicine without the slightest benefit, and declares Mother Seigel's Syrup which he got from me has saved his life.

Yours truly,
(Signed) N. WENN,
Mr. White, Chemist, Calne.

Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medicinal virtues; one customer describes it as a "Godsend to dyspeptic people." I always recommend it with confidence.

Faithfully yours,
(Signed) VINCENT A. WILLS,
Chemist-Dentist,
To Mr. A. J. White, Merthyr Tydfil.

Preston, Sept. 21st 1883.
My Dear Sir,—Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible. The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "one of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it."

The sale keeps up wonderfully, in fact, one would fancy almost that the people were beginning to breakfast, dine, and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great.—I am dear Sir, yours faithfully,
(Signed) W. BOWKER.

To A. J. White, Esq. 567 1y

A SKILFUL SURGICAL OPERATION.

The American Ambassador at Vienna, Mr. Kasson, has lately forwarded to his Government an interesting account of a remarkable surgical operation lately performed by Professor Billroth, of Vienna, which, wonderful to tell, consisted in the removal of a portion of the human stomach, involving nearly one-third of the organ—and, strange to say, the patient recovered—the only successful operation of the kind ever performed. The disease for which this operation was performed was cancer of the stomach, attended with the following symptoms:—The appetite is quite poor. There is a peculiar indescribable distress in the stomach, a feeling that has been described as faint "all gone" sensation; a sticky slime collects about the teeth, especially in the morning, accompanied by an unpleasant taste. Food fails to satisfy this peculiar faint sensation; but, on the contrary, it appears to aggravate the feeling. The eyes are sunken, tinged with yellow; the hands and feet become cold and sticky—a cold perspiration. The sufferer feels tired all the time, and sleep does not seem to give rest. After a time the pa-

tient becomes nervous and irritable, gloomy, his mind filled with evil forebodings. When rising suddenly, from a recumbent position there is a dizziness, a whirling sensation, and he is obliged to grasp something firm to keep from falling. The bowels costive, the skin dry and hot at times; the blood becoming thick and stagnant, and does not circulate properly. After a time the patient spits up food soon after eating, sometimes in a sour and fermented condition, sometimes sweetish to the taste. Oftentimes there is a palpitation of the heart, and the patient fears he may have heart disease. Towards the last the patient is unable to retain any food whatever, as the opening in the intestines becomes closed, or nearly so. Although this disease is indeed alarming, sufferers with the above named symptoms should not feel nervous, for nine hundred and ninety-nine cases out of a thousand have no cancer, but simply dyspepsia, a disease easily removed if treated in a proper manner. The safest and best remedy for the disease is Seigel's Curative Syrup, a vegetable preparation sold by all chemists and medicine vendors throughout the world, and by the proprietors, A. J. White (Limited), 17, Farringdon-road, London, E. C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

To Mr. A. J. White,
Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure costiveness.

Spanish Town, Jamaica, West Indies,
Oct. 24, 1882.

Dear Sir,—I write to inform you that I have derived great benefit from "Seigel's Syrup." For some years I have suffered from liver complaint, with its many and varied concomitants, so that my life was a perpetual misery. Twelve months ago I was induced to try Seigel's Syrup, and although rather sceptical, having tried so many reputed infallible remedies, I determined to give it at least a fair trial. In two or three days I felt considerably better, and now at the end of twelve months (having continued taking it) I am glad to say that I am a different being altogether. It is said of certain pens that they "come as a boon and a blessing to men," and I have no reason to doubt the truthfulness of the statement. I can truly say, however, that Seigel's Syrup has come as a "boon and a blessing" to me. I have recommended it to several fellow-sufferers from this distressing complaint, and their testimony is quite in accordance with my own. Gratitude for the benefit I have derived from the excellent preparation, prompts me to furnish you with this unsolicited testimonial.

I am dear Sir,
Yours ever gratefully,
(Signed) Carey B. Berry,
A. J. White, Esq. Baptist Missionary.
